SANTA MONICA MOUNTAIN COVER MIX

This mix is a blend of grasses, flowers and shrubs for revegetation of soil and slopes with plant types that belong in the Santa Monica Mountain area. There is a quick start grass to protect soil and allow slower perennials to provide their permanent cover in the years to come. Designed as a non-irrigated mix, irrigation will foster establishment and prolong the blooming period.

<u>SPECIES</u>	<u>COMMON NAME</u>	<u>BULK #'s/ACRE</u>
<i>Artemisia californica</i>	California sagebrush	2.00
<i>Bromus carinatus</i>	California brome	4.00
